FOREWORD

Civil List of Indian Administrative Service (IAS) officers is a vital document in that it encapsulates in brief the relevant details of its members at a glance. It gives me great pleasure to release the 60th edition of the publication for the year 2015.

2. The raison d'être behind the creation of a service like the Indian Administrative Service was to bring about a minimum and uniform standard of administration throughout the country, to induct best available talent at the Centre as well as in the States, to strengthen the unity of India, and to help in bringing about national integration. Members of Indian Administrative Service hold important posts in the government and are expected to contribute to the best of their ability towards the development and progress of the nation. The authorized cadre strength of the Indian Administrative Service at present is 6375 spread across 26 States / Joint Cadres.

3. Vital information about officers in respect of their present posting, the overall cadre strength, the pay scale of the officer and the number of officers retiring in the coming years is provided in the Civil List of IAS officers. This information is critical in proper cadre management of the service and paves the way for a coherent recruitment strategy.

4. Various facets of Organizational structure of the IAS, such as, its composition by gender and by academic background, and the overall profile of its members in terms of the number of technocrats vis-à-vis officers with liberal arts background can be gleaned from a study of information available in the Civil List. Precisely for this reason, the Civil List is an eagerly awaited document not only for the Member of the Service and the State Governments but also for researchers and academics. Availability of the Civil List on the net has also made it convenient for organisations and professionals having interface with Government to keep abreast with the changing scenario in various Ministries/Departments providing vital information on the personnel manning various posts.

5. I compliment all those officers who contributed for the publication of IAS Civil List-2015.

PREFACE

I am happy to be associated with the Publication of the 60th edition of the Civil List of the Indian Administrative Service officers updated as on 01.01.2015.

2. The Civil List is a valuable source of information about the officers of the Indian Administrative Service. The Civil List has been compiled on the basis of information received from the State Governments. The task of reflecting accurate posting/ pay details of an officer belonging to a particular cadre in the Civil List entirely depends on the inputs provided by the respective Cadre. For facilitating last minute updation of such details a web based online portal developed by NIC has been in use since the last few years. The Civil List online updation system affords an opportunity to the State Cadres to give the accurate information as on the stipulated cut off date. Considerable accuracy has been achieved by the introduction of the online updation system and our target of publishing a zero error Civil List could certainly be achieved once all the States begin to utilise the system optimally. Every effort has been made to ensure that details of postings of the officers as well as their new pay band and grade pay are reflected correctly. However, if any errors are noticed in this compilation, these may be brought to our notice for rectification.

3. The online version of the Civil List is available on the website of the Ministry at <http://persmin.nic.in>, which has a provision for State Governments to make online corrections. Suggestions for improvement and for making this version more user friendly are welcome.

4. Contents of the Civil List do not confer any official sanction in respect of the particulars given therein of individual officers. In case of any doubt, or dispute, the correct information may be obtained from the original records available with the State Governments/Central Government.

5. On behalf of the Department of Personnel & Training, I would like to thank all State Governments as well as members of the Service for their cooperation in bringing out this Civil List. We are also grateful to National Informatics Centre (NIC) for the technical support extended by NIC-DOPT and cooperation by NIC State Units in preparation of this Civil List. I would like to place on record my appreciation of the sincere efforts put in by officers and staff of the Services Division and Official Language Wing of this Ministry in the preparation and publication of the Civil List.

New Delhi;
Dated :17th January, 2015

(JISHNU BARUA)
Joint Secretary to the Government of India

| | | Yunus (HP-2010) | 97 | Zutshi Vinod (RJ-1982) | 234 |

**** - Allotment Year is yet to be fixed.

METHODOLOGY ON DATA

The primary source of data for updating the posting/pay/qualification and other details of the IAS officers is the respective cadre and the EO(CM) Division of DOP&T in respect of officers working in the State and at the Centre respectively.

2. The web-based on line portal developed by NIC affords an opportunity to the state cadres to carry out online updation of information. Although detailed instructions for carrying out on line updation were issued, it was felt that there is scope for more optimal utilization of the facility, which could lead to achievement of the avowed goal of publication of a zero error civil list. Consequently, the task of updation of the data was undertaken by the AIS-III Division, on the basis of hard data supplied by the states as on 01.01.2015.
3. The updated draft civil list prepared on the basis of inputs received from various cadres was put on the website of the Department on 05.01.2015 with a ten day window period for filing objections, which were then rectified and the refined data after several rounds of updation were merged to obtain a copy of the Civil List ready for its publication. It is expected that once various state cadres begin to utilize the system of on-line updation of data optimally and effectively, it would lead to greater accuracy and effectiveness in the publication of the Civil list.
